To Whom It May Concern,

It is with pleasure that I can share with you our experience working with Intoria. We started using Intoria a few years ago and since then have completed more than seven website development projects with Intoria that we have successfully delivered to our clients.

Something that is very important to us is the ability to dream big about what is possible and explore new ways to do old tasks. Intoria believes that anything is possible and has always brought us solutions that allow us to bring our ideas to life. It has been great to work with a company that doesn't back down from a challenge and is willing to push the limits of what a website can do. We always end up with awesome work.

We also believe strongly in having meaningful relationships with the suppliers we work with and we can see that the whole team at Intoria believes the same thing. We appreciate how easy it is to work with everyone on their team and know that they are all committed to delivering high quality products.

The final critical element to us is integrity and Clarke and Blake have demonstrated to us over and over that, no matter what, they aren't willing to compromise their integrity for anything. We trust them completely and they always give everything they can to make sure we get the best product and are satisfied.

It is a pleasure working with them and we would be happy to recommend them to anyone considering it. Please feel free to contact us with any requests for more information.

Sincerely,

Michael Klassen
